

VIGNESH G

Full Stack Developer

Phone: +916379130889 | Email: vigneshgovindhan57@gmail.com | LinkedIn: linkedin.com/in/vignesh-g-a92a28244

Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Full Stack Developer with 2.8+ years of experience building scalable and high-performance SaaS applications using **React.js, Next.js, Node.js, Express.js, MySQL, and JavaScript (ES6+)**. Experienced in configuring **Model Context Protocol (MCP) Servers** for AI-driven applications, implementing secure authentication and authorization, and merging APIs and CRM systems. Strong knowledge of **RESTful APIs, backend development, microservices architecture, workflow automation**. Skilled in optimizing application performance and delivering reliable solutions in Agile environments.

SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, Redux, HTML5, CSS3, SCSS (Sass)

Backend: Node.js, Express.js, Fastify, REST APIs, GraphQL, Socket.IO, Microservices Architecture

Databases & Caching: MySQL, MongoDB, Redis

AI & LLM: MCP, RAG Pipeline, Web Scraping, VectorDB, FastAPI, Langchain, LangGraph

Authentication & Security: JWT, OAuth 2.0

Cloud & DevOps: AWS, Docker, CI/CD Pipelines, Jenkins

Tools: Git, GitHub, Postman

WORK EXPERIENCE

Worktual Innovations, Chennai, India

Dec 2023 – Current

Software Engineer – Full Stack

- Developed and deployed AI Agent integration Platform (MCP) using Python, FastAPI, OAuth 2.0, exposing enterprise APIs as AI-callable tools and integrating with ChatGPT, Claude and Microsoft Copilot.
- Developed and enhanced an AI-powered CCaaS platform using React.js, Node.js, Fastify, and MySQL, integrating with Salesforce, HubSpot, Microsoft Dynamics 365, Zoho CRM, Zendesk, and Pipedrive, reducing average handling time by 30–40%.
- Built and integrated an AI chatbot using OpenAI APIs, LLMs, and RAG, developing Python backend services for knowledge retrieval, conversation management, and AI response generation for Shopify, BigCommerce.
- Developed scalable RESTful APIs and third-party integrations with Calendly, Google Calendar, Outlook, and Zapier, enabling workflow automation across 500+ applications and reducing manual effort by 40–60%.
- Improved backend performance, security, and scalability by implementing OAuth 2.0, JWT authentication, API documentation, and MySQL optimization, while collaborating in Agile/Scrum teams to deliver enterprise SaaS solutions.
- Designed and implemented scalable backend microservices using Python, FastAPI, Node.js, and MySQL, optimizing API performance, improving system reliability, and supporting high-volume enterprise workloads with secure, maintainable architectures.

PROJECTS

- **AI Agent Integration Platform (MCP):** Developed and Deployed a Model Context Protocol (MCP) server to expose Worktual APIs as AI-Callable tools for LLM-Powered agents. Implemented OAuth 2.0 authentication for secure AI Integration. Built Backend services using FASTAPI (Python) to support MCP server Configuration and Successfully Integrated with Major Marketplaces like Claude, ChatGPT and Microsoft Copilot.

- **AI Contact Center:** Developed and improved a robust CCaaS platform using **React.js, Node.js, Fastify,** and **MySQL**, integrated with major CRM systems such as Salesforce, HubSpot, Microsoft Dynamics 365, Zoho, Zendesk, and Pipedrive, enabling users to manage customer interactions within a unified interface, reducing context switching and decreasing average handling time by 30–40%.
- **AI Chatbot:** Developed and integrated Worktual's AI-powered chatbot using **OpenAI APIs, LLMs,** and **RAG**-based knowledge retrieval for e-commerce platforms including Shopify, BigCommerce, and Wix. Built **Python-based backend services and APIs** to handle chatbot requests, knowledge retrieval, conversation management, and AI response generation. Enabled merchants to install and use the chatbot directly within their store interfaces, automating customer support and sales inquiries while improving response times, customer engagement, and response accuracy.
- **Connectors for Worktual:** Built and upheld scalable **RESTful APIs** using **Node.js** and **Fastify** to integrate CRM systems and ensure seamless data synchronization. Applied third-party integrations with Calendly, Google Calendar, and Outlook for real-time meeting scheduling.
- **Zapier Workflow Automation:** Published and configured UCaaS and CCaaS APIs on the Zapier platform, enabling integrations with 500+ third-party applications and significantly expanding ecosystem reach. Reduced manual workflow effort by 40–60% through automated cross-platform communication and CRM synchronization, improving overall operational efficiency.
- **API Services:** Enhanced secure and scalable API services for Worktual CCaaS products using **Node.js, Fastify,** and **MySQL**. Enforced **OAuth 2.0** and **JSON Web Tokens (JWT)** for secure authentication and authorization. Generated comprehensive API documentation to support third-party integrations.

EDUCATION

Bachelor of Electronics and Communication Engineering (B.E.)
Gnanamani College of Technology, Namakkal

2018 – 2022

CERTIFICATIONS

- **Building with the Claude API** - Anthropic Education (2026)

ACCOMPLISHMENTS

Successfully released and maintained applications on major marketplaces including Freshworks, Pipedrive, Zendesk, Microsoft Dynamics 365, Shopify, BigCommerce, and Wix.

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Requirement Analysis
- Communication Skills
- Time Management

LANGUAGES

- Tamil (Native)
- English (Professional Working Proficiency)
